

FEC/BEC Knife into DECC Controls

Upgrade

Upgrade Application

Applicable to Knives with existing DECC, WinDECC, or MCS/ICS Upgrade. Knives without resolvers require the resolver upgrade.

Upgrade Description

Upgrade the existing MarquipWardUnited Knife Front-End/Back-End Computer (KFEC/BEC) into DECC Controls. Allows removal of existing KFEC/BEC Knife console. Upgrade includes all the necessary engineering, manual and updated prints, and installation instructions.

Upgrade Benefits

- Integration into DECC controls allows for single point entry
- WinDECC Controls allows for Remote Troubleshooting
- Conversion to modern PLC controls
- Resolver conversion to robust resolver technology
