

Eliminate Limit Switches

TIP Z022A-0003

S. lica

Benefits:

- This improvement replaces the original mechanical limit switches with proximity switches

Revised Design

Original Design

Eliminate Limit Switches

All Splicers with mechanical limit switches.

This improvement replaces the existing mechanical limit switches with proximity switches. This eliminated the constant re-adjustment the is required to the mechanical switches over time due to the severe duty they endure.

Included in this TIP:

- All required parts
- Necessary engineering
- Updated documentation pages for relevant sections

Estimated downtime, no production:

- 5 days

Estimated startup, limited production:

- 3 day

Estimated monitoring in production:

- 3 day

Required manpower:

- 1 BW Papersystems Mechanical Field Service Engineer
- 1 BW Papersystems Electrical Engineer
- Additional Assistance from Customers’ Maintenance

(Additional local resources to be determined, if needed)
